Type 1 Collagen

A natural aid to tighten up the body.

Collagen is a protein that is found in our bodies: our skin, tendons, muscles, organs, gut, and bones. Collagen represents about 70% of our total body protein. Type 1 is the top shelf collagen made from the hyde of a grass fed organic cow. Our collagen is hydrolyzed which means that the collagen has gone through a process of enzymatic hydrolysis which breaks down the protein into the smallest form of amino acid peptide so your body can absorb it at the cellular level. This is why you have to take collagen orally so that you can help support your body from a cellular level to tighten up the ship. Our blend of ingredients allow for our collagen supplement to help aid in healing of the intestinal wall, improves joint health, improves elasticity and helps reduce cellulite, makes hair thicker, helps wound healing, and is important for growth and maintenance of tendons and ligaments. As we age, our collagen production naturally begins to decrease. This is why we need to supplement. Organiccs Absolutely Pure Type 1 Collagen comes in a capsule. Forget about mixing it into a sugary drink. No more clumping and poor taste!

- ✓ Gut health
- ✓ Joint health
- ✓ Skin & hair
- ✓ Wound healing
- ✓ Muscle mass

Mega Immune

*A natural aid to boost the immune system & T-Cell production.**

Mega Immune is a synergistic blend of immune supporting ingredients. T- cells kill the infected host, activate other immune cells, produce cytokines, & regulate the immune response. Our Immune Killer-T product helps boost product of T-cells. One highlighted ingredient, olive leaf extract contains a high amount of polyphenols that are rich in antioxidants and immune supporting properties. In addition, this extract can help balance cytokines in the body. Cytokines are responsible for regulating the body's immune and inflammatory response. This formula is packed with different types of mushrooms. One type is the Reishi mushroom which is an adaptogen that increases T-Cells, interleukin 2 (IL-2) production, is an antiviral, and is anti-inflammatory. Shiitake, Maitake, and Agaricus Blazei mushrooms stimulates T-cell growth which helps support our immune system and keeps it strong to kill off foreign invaders. Astragalus is also included which boosts the immune system, increases T-cells, and can protect against viruses. Ginger is also considered a natural antibiotic and effective against a wide spectrum of bacteria, viruses, fungi, & strep. All ingredients were chosen to help support our immune system.

Total Turmeric

A natural aid for inflammation and muscle soreness recovery.*

Dr. Cymerint's Turmeric formulation is a powerful combination of synergistic nutraceuticals combined to enhance Turmeric's natural ability to reduce inflammation. This formula is professionally formulated to decrease the inflammatory responses in your body and to restore homeostasis. Inflammation is a common factor in aging and physical stress. Our bodies are constantly working to reduce the inflammatory response. Too much inflammation causes wear & tear resulting in subsequent aging seen in the form of tissue hardening, arthritis, stiffness, autoimmune disorders, and pain. Turmeric when combined with black pepper, organic ginger, saffron, & bromelain can also improve exercise induced muscle soreness & recovery. The medical literature on all of these ingredients supports all anti-inflammatory & muscle recovery issues.

Ingredients:

Organic Turmeric Powder, 95% Standardized Curcuminoid, Black Pepper Fruit Extract (Piperine)

A proprietary blend of the following ingredients: Organic ginger root extract, saffron powder, bromelain.

Other ingredients: Vegetable cellulose capsule

Recommended Dosage: Up to 3 Capsules daily. May be taken with or without food.

IT'S TIME TO RELAX! ACM'S GOT YOU COVERED!

Advanced Chiropractic Management

Revenue Growth

Advanced Chiropractic Management has been the leader in California since 1988. Chiropractors, Physical Therapists, Acupuncturists and Medical Doctors are flourishing with the help of ACM.

ACM has chosen to specialize in DC, PT, and A/C for California doctors and practitioners and know the industry better than any other company. We are the leaders in our field because we possess the extensive knowledge required to get your claims paid at the highest level possible.

Some of the many benefits of using ACM as your billing service includes maximizing reimbursement from insurance companies, extensive training for you and your staff, additional training for all new staff and doctors, and decreasing office costs such as postage, forms and computer upgrades. You'll have unlimited access to our ACM staff experts for all of your billing questions and needs. Isn't it time for the peace of mind you've been looking for?

Consider the Facts

Solutions

Advanced Chiropractic Management (ACM) offers billing solutions that are designed to immediately reduce your overhead and eliminate 97% of all paperwork in your office.

Reduce Employee Expenses

Competitive salaries, payroll taxes, FICA deductions, training time, workers compensation insurance and other benefits add up to \$28,000-\$40,000 a year per employee. Employee training costs in insurance billing alone are sizable. The team at ACM are experts in claims processing and collections. Leave his paperwork to us. Assign employee tasks where they can be most effective - attending to in-house practice building and proper patient retention.

Stop Staff Turnover

No one likes to have their cash flow interrupted, which is what inevitably happens when your in-house biller decides to leave or is terminated. Think of the hours wasted spent on finding, hiring and training new personnel. With ACM you'll never have to worry about these troubles again.

Increase Your Cash Flow

Incomplete claims, lost claims or improper coding cause payment delays of up to one-hundred twenty days. ACM's electronic billing speeds up the processing time to 7-10 days, taking the "plug" out of cash flow problems.

ACM's Menu of Services

Daily Electronic Billing

Complete Claim Follow-Up

Via telephone (Not Tracers). When claims are pending or denied, we do the work to get them paid!

Posting of All Payments

All monies are deposited directly into the doctor's account two times a week.

Customer Support

ACM's expert staff are available Monday - Friday, 8:00am to 5:00pm to assist you.

Training

Initial training of all Doctors and staff.

More Training

Additional training for any new Doctor or staff member added to the practice.

Where there's room to improve,
we can't help ourselves.

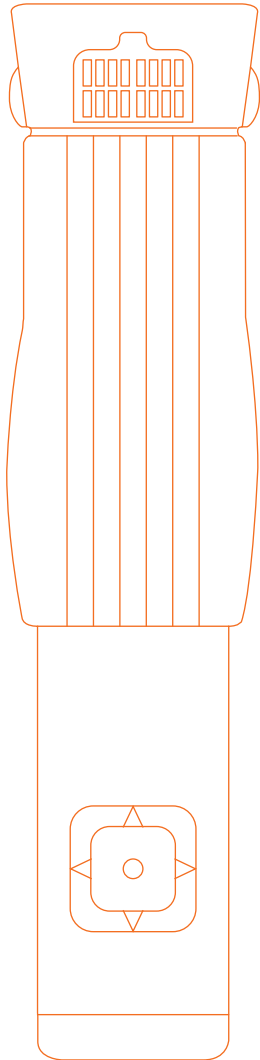

ACTUAL SIZE

The LZ30-Z:
Our extraordinary red/infrared laser.

Sometimes a new perspective is required to re-imagine what is. When we see lasers that are too bulky, heavy, and tricky to use, we see an opportunity to create something better. Presenting the LZ30-Z: the smallest, most powerful, and easiest to use class 3B laser out there. And—if that wasn't enough—it's also the most affordable.

AVANT
SMALL IS MIGHTY

AVANTWELLNESS.COM

Go small to think big.

Diminutive in size but huge on results, the LZ30-Z is a powerful addition to your practice. Your patients will love it because they'll get better results, faster. And you'll love it because you'll get better ROI, faster.

Bringing innovation to light.

The LZ30-Z has both red and infrared wavelengths which produce separate and synergistic effects. The two pulsing wavelengths maximize your treatment outcomes.

Unmatched power.

The LZ30-Z laser has the highest power in its class—1,000mW of red and 1,400mW of infrared. Clinical evidence demonstrates that increased power within Class 3B lasers improves outcomes.

You'll wear out before the LZ30-Z does.

The LZ30-Z is fast charging with the longest battery life of any class 3B laser. With the charging cradle, your laser is always ready to go.

Impossibly lightweight.

The LZ30-Z weighs just 5 ounces with no cords or consoles to manage. You'll end the day grateful that we trimmed every ounce. As the lightest Class 3B laser available, you may even forget it's in your hand.

Scroll. Click. Done.

Stop punching in protocols or hunting through manuals. You'll have easy access to everything you need with hundreds of protocols, and a favorites section for quick access to your most used presets.

WHAT IS CBN?

Cannabinol (CBN) is affectionately known as the "sleepy cannabinoid". It offers mild sedative benefit, while promoting overall health & wellness.

VivaOil Sleep Formula includes CBD & natural hemp terpenes known to aid sleep. Taken at night before bed, VivaOil Sleep Formula could result in increased total sleep time with less frequent waking and no hangover effects.

VivaOil CO2 Extraction

**THE MAYO CLINIC RECOMMENDS
HEMP CO2 EXTRACTION**

“

“If patients and/or physicians choose to experiment with CBD... ensure that the product has been extracted by carbon dioxide with no solvents”

VIVA OIL CO2 EXTRACTION SYSTEMS

Quality is our standard. VivaOil is free from residual solvents, pesticides, microbial contaminants & heavy metals. VivaOil’s carbon dioxide (CO2) extraction ensures product purity. CO2 gently isolates cannabinoids & terpenes to create a potent, safe, & reliable extract.

What are terpenes? Terpenes lend a unique scent & flavor to all plants. Research shows that hemp terpenes provide a myriad of beneficial health properties. Furthermore, cannabinoids hold a synergistic relationship with terpenes - together they work to provide greater benefit than what any single hemp compound could achieve alone. Terpenes are highly volatile compounds that are easily destroyed with other forms of extraction.
