# Type-1 Hydrolyzed Collagen Peptides

A natural aid to tighten up the body.

Collagen is a protein that is found in our bodies: our skin, tendons, muscles, organs, gut, and bones. Collagen represents about 70% of our total body protein. Type 1 is the top shelf collagen made from the hide of a grass fed organic cow. Our collagen is hydrolyzed which means that the collagen has gone through a process of enzymatic hydrolysis which breaks down the protein into the smallest form of amino acid peptides, so your body can absorb it at the cellular level. This is why you have to take collagen orally, so that you can help support your body from a cellular level to tighten up the ship. Our blend of ingredients allow for our collagen supplement to help aid in healing of the intestinal wall, joint health, elasticity and helps reduce cellulite, aiding in making hair thicker, helps wound healing, and is important for growth and maintenance of tendons and ligaments. As we age, our collagen production naturally begins to decrease. This is why we need to supplement. Organiccs Absolutely Pure Type-1 Collagen comes in a capsule. Forget about mixing it into a sugary drink. No more clumping and poor taste!

## Advanced Chiropractic Management

### Revenue Growth

ACM has chosen to specialize in DC, PT, and A/C for California doctors and practitioners and know the industry better than any other company. We are the leaders in our field because we possess the extensive knowledge required to get your claims paid at the highest level possible.

Some of the many benefits of using ACM as your billing service includes maximizing reimbursement from insurance companies, extensive training for you and your staff, additional training for all new staff and doctors, and decreasing office costs such as postage, forms and computer upgrades. You'll have unlimited access to our ACM staff experts for all of your billing questions and needs. Isn't it time for the peace of mind you've been looking for?

## Consider the Facts

### Solutions

Advanced Chiropractic Management (**ACM**) offers billing solutions that are designed to immediately reduce your overhead and eliminate 97% of all paperwork in your office.

Assign employee tasks where they can be most effective - attending to in-house practice building and proper patient retention.

#### Stop Staff Turnover

No one likes to have their cash flow interrupted, which is what inevitably happens when your in-house biller decides to leave or is terminated. Think of the hours wasted spent on finding, hiring and training new personnel. With **ACM** you'll never have to worry about these troubles again.

#### Increase Your Cash Flow

Incomplete claims, lost claims or improper coding cause payment delays of up to one-hundred twenty days. ACM's electronic billing speeds up the processing time to 7-10 days, taking the "plug" out of cash flow problems.
